

HEAVY TILLAGE CULTIVATORS

Heavy Tillage Cultivator should be used on light and medium soils. Due to the proper setup of the distances between the subsequent beams and the ground clearance the tines ensure the excellent results both in the conditions of the light and heavy soils.

AUC

Model	AUC30	AUC40
Width [m]	3,0	4,0
Tines [pcs.]	12	16
Power requirement [hp]	100 - 140	140 - 190
Weight [kg]	1600	2200
Efficiency [ha/h]	1,8 - 2,7	2,6 - 3,8
